

Choose Orbit Fryer

Creating delicious meals is a breeze with the Orbit Fryer. Versatile and convenient, the Orbit Fryer is set to revolutionize the way food is prepared in kitchens everywhere.

- **Versatile**
Sauté, stew or stir-fry with one pot.
- **Thorough cooking**
The IH 3D heating and spherical inner pot ensure that heat is evenly distributed.
- **Hassle-free**
With the 360° automatic frying and precise menu presets, you won't have to keep watching your cooking.
- **Pleasant environment**
Less smoke is produced while oil splatters are reduced, making for a more pleasant and relaxed cooking experience.
- **Easy cooking and serving**
The three angle positions are designed for easy stewing, frying and serving.

Warranty
World Kitchen cookware is covered under a warranty within 12 months from the date of purchase. Proof of purchase (receipt), warranty card and product are required for replacement. For warranties to apply, Cleaning and Maintenance instructions must be followed and product must be returned. Accidental breakage from impact or damage from misuse is not covered by warranty.

An Easy Choice

Whether you need to cook, sauté, stew or stir-fry, there's really only one fryer you'll ever need: the Orbit Fryer. It's a hassle-free way to create gourmet dishes right at home.

brings you the new Orbit Fryer

Reduction In Effort Perfection In Cooking

Simple And Effortless

The Orbit Fryer features a smart menu that is really easy to use. You can fry, cook rice and sous-vide with one touch or you can enter your own settings. So rather than cramming your kitchen full of cookers, pots and pans, all you really need is one fryer. What's more, the adjustable heat setting with timer takes the hard work out of cooking your favourite dish.

Evenly Cooked Food, Always

With the Orbit Fryer, you can be sure that your food will be perfectly cooked every time. Copper wires running inside the pot provide 360° heating. The spherical inner pot also circulates the heat around, dispersing it from every angle. This ensures that your dishes are cooked evenly and thoroughly.

Save Time. Save Energy.

With the 360° automatic frying, you won't have to spend a lot of time or effort stirring or frying your food. You can also be sure that your dishes are properly cooked as the angle of the rotation simulates the angle of a chef's skillet. The precise temperature and timing controls free up both of your hands, allowing you to use your time more efficiently.

Positioned For Your Convenience

The three angle positions of the Orbit Fryer are designed to make cooking even easier. The vertical position is ideal for stewing food. The 50° position offers the best angle for stir-frying. This position also optimizes heat conduction, holds a larger amount of food and cuts down on spillage. The horizontal position is great for serving food, allowing you to pour it out gently without having to lift the pot at all.
